

	Ravindra Dhar (D. Phil. UOA)	919415278539, 0532-2460017, 2466122
	Professor	rdhar@allduniv.ac.in, dr_ravindra_dhar@hotmail.com
	M.Sc. level: Physics-Electronics, Research level: Liquid Crystalline Materials, Dielectric Spectroscopy	
Designation	Professor	
Email-Id	rdhar@allduniv.ac.in, dr_ravindra_dhar@hotmail.com	
Area of Specialization	M.Sc. level: Physics-Electronics, Research level: Liquid Crystalline Materials, Dielectric Spectroscopy	
Phone No.	0532-2460017, 2466122	
Mobile No.	919415278539	
Awards & other Achievement	Principal Investigator 1. Formulation of tri-state switchable display materials. DAE (BRNS), Mumbai, Tenure: 01 April 2011-31 March 2014. (Ongoing) 2. Nature-inspired low cost organic and their nano composites based photovoltaic solar cells. DIT, New Delhi, Tenure 01 April 2012-31 March 2015. (Ongoing) 3. International collaboration with Trinity College, University of Dublin, Ireland on Photovoltaic solar cells using organic-nano composites under Indo-Ireland International Collaboration scheme with exchange of Faculty/Researchers. (Ongoing)	
Selected Publications	<ol style="list-style-type: none"> 1. Characteristic time of ionic conductance and electrode polarization capacitance in some organic liquids by low frequency dielectric spectroscopy, S. L. Srivastava and RavindraDhar, Indian J Pure & Appl. Phys., 29, 745-751, (1991). 2. Effect of γ irradiation on cholesteryl pelargonate, S. L. Srivastava and RavindraDhar, Radiat. Phys. Chem., 47, 287-293 (1996). 3. An impedance model to improve the higher frequency limit of electrical measurements on the capacitor cell made from electrodes of finite resistances, RavindraDhar, Ind. J. Pure & Appl. Phys., 42, 56-61, 2004. 4. Electro-optical and dielectric studies of a technologically important induced antiferroelectric liquid crystal mixture W132A, A. K. Srivastava, V. K. Agrawal, R. Dabrowski, J.M. Otón, and R Dhar, J. Appl. Phys. (USA), 98, 013543 (1-8 pp), 2005. 5. Dielectric spectroscopy of a binary mixture of liquid crystals showing wide temperature range twisted grain boundary phase with re-entrant cholesteric phase, Meenal Gupta, R. Dhar, V. K. Agrawal, R. Dabrowski and M. Tykarska, Phys. Rev. E, 72, 021703 (1-10 pp), 2005.
