# Social Impact Assessment (SIA) of Village – Pachdevra (for ROB 29B) and Village – Ghoredih (for ROB 27C), District – Prayagraj

## 1. Methodology and Coverage

- We will select the two villages identified by district administration Prayagraj for land acquisition. The names of these identified villages are Pachdevra (ROB 29B) and Bhoredih (ROB 27C).
- Social Impact Assessment (SIA) will be conducted in two villages as mentioned above. Project Affected Persons (PAPs) from households or the Number of PAPs resided in these two villages will be identified.
- We will collect both secondary (published and unpublished) data and primary data. The secondary data will be collected from concerned Gram Panchayats, Census, Revenue Department, concerned Block Office, Planning documents, Reports, and Records of Expert Groups, etc.
- We will conduct a survey on a household basis covering PAPs existing within the household. We will also conduct Focus Group Discussions (FGDs) with Gram Panchayat members and local people for exploring the facts covering various aspects.
- We will collect primary data through structured schedules, questionnaires, social mapping, resource mapping, educational mapping and trend analysis. We will also record (qualitative data) in the form of narrations, comments and reactions of the people during interviews and group discussion.

## 2. Study Tools
